Board Message

What distinguishes ISS is its commitment to its values and principles which is created in our business culture. An ethic of honesty and service, value, excellence and opportunity, make up the center of our values and principles. These core values and principles form the corner stone of how we do business with our clients.

ISS listens well and understands the needs of its customers in order to give intelligent and cost effective solutions that meet their needs. We do this with the display of ethical conduct of trust and integrity in the execution of every project.

ISS Health, Safety, and environment (HSE) principles are our unwavering commitment to address safety and environment issues and concerns of our clients, their employees, contractors, and vendors.

We will always support the needs to provide a clean environment, energy efficiency, reduce pollution, and build environmental friendly facilities.

We believe that our sustainability means satisfying the needs of our clients while doing business in a socially, economically and environmental responsible manner to the benefit of present and future generations.

We will always support the needs to provide a clean environment, energy efficiency, reduce pollution, and build environmental friendly facilities.

Who We Are

ISS is a solutions provider working in the field of Occupational Health, Safety, Social, Environmental (OHSSE), Service Quality and Process Assurance.

ISS targets tailored OHSSE solutions to increase knowledge, awareness and skills amongst all industries. This will ultimately reflect organization's operational performance and cost savings.

As a consulting company we help various companies and business houses to grow and become operationally efficient at various phases of their business. ISS is very diversified supporting different industries i.e. Oil and Gas, Renewables Energy, Construction, FMCGs, Education

ISS strategic plan is to support companies that deal with lenders (WB, EBRD, IFC, EIB,...) to satisfy their OHSSE requirements (building OHSSE management systems and plans, site OHSSE management, training,...), consequently we can support lenders and conduct Lenders audits at all sites.

ISS renders unique training services in Occupational Health, Safety, Social, Environmental (OHSSE), Service Quality and Process Assurance, all our trainers are professionally qualified and have very good experience in various industries, which qualifies us to attain excellence in delivering training.

ISS experts will work as an extension of your staff to identify and provide tailored solutions to your organization's unique needs.

ISS is a member of The British Safety Council (BSC).

Mission

ISS mission is to provide cost-effective and innovative solutions to our clients' complex challenges to have a competitive edge over their competitors in an ever-changing global economy.

Vision

We strive towards zero accidents, zero incidents, and zero impact to the environment.

Wael Abdel Ghany

Wael is strategic planner of the company with 20 years of experience in occupational health, safety, environment, service, quality, and process safety. Three years of academic university work and 17 years in different HSEQ roles within the Oil and Gas industry in multinational multinational. Wael holds a Ph.D. in Health Physics.

He is a qualified Lead Auditor for ISO:14001 and OHSAS 18001 / ISO:45001, and fully aware of all international HSE legislations and Standards.
